

TUG BOAT

# Loke R

Loke R is a **specialised tug** for towing, pipe handling and ploughing, and is fitted with a removable 10 tons hydraulic A-frame and 20 tons towing winch. The knuckleboom crane at SWL 20 tons **can handle most spare parts**, and assist where necessary.

With a vertical rubber covered pushbow, Loke R can **safely accommodate crew transfers**. Having a flybridge control system allows for **superior high safety maneuvering**.

With a bollard pull of 18 t, Loke R is capable of handling **a variety of tasks**.

## Nordic mythology

**Loke** is nothing but a rascal, but is so sneaky and malicious that he tricked his way into becoming a god. He is constantly switching sides in every conflict, and enjoys wreaking havoc.

## SPECIFICATIONS
