

BARGE UNLOADER

Gylfe R

Gylfe R accommodates several **shore and offshore possibilities for pumping** materials ashore for land reclamation or in environmental depot.

The pumping distance depends on the material and the chosen configuration of the pumps. When working as barge unloader, a distance of 4 km is possible. Gylfe R can also function as booster station, to increase the pumping distances of our dredgers.

Gylfe R can also be used as accommodation unit with the large galley and mess room.

Nordic mythology

Gylfe was king of Sweden. Gylfe is captivated by the beauty of Gefion and allows her to take away a piece of land, unaware that she is very wise, and capable of ploughing a large piece of Sweden.

SPECIFICATIONS

IMO	8988715
Call sign	5BRL3
Gross Tonnage	843 GT
LOA	45.51 m
Breadth	15 m
Draught	2 m
Pumping power	4x 906 kW
Total installed power	4837 kW
Flag	Dutch
Class	DNV GL
