

## SURVEY VESSEL

# Skuld R

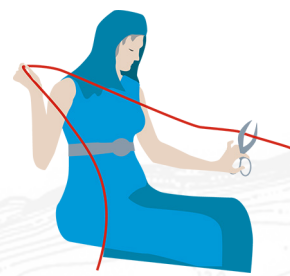

Skuld R is a **highly innovative survey drone**. The drone **can be operated automatically** on predetermined routes, with a reach of 1.5 km, or manually with a remote controller, with a reach of up to 600 m.

With a draught of only 0.2 m, Skuld R is ideal for survey in ports, and on **extremely shallow water** of only 0.5 m.

Skuld R is equipped with a **cutting edge multibeam system**, enabling it to make **highly accurate surveys**, usable for sea mapping, volume verifications, and volume calculations.

Skuld R provides surveys in such high quality, that they fulfil all requirements for **official contractual documentation**.

Furthermore, Skuld R is capable of quickly providing our dredgers with comprehensive surveys, ensuring precise and continuous **monitoring of dredging activities**.

## Nordic mythology

**Skuld** is one of three goddesses of destiny. Together with Urd and Verdande, she sits in Asgard, where they control the destiny of men and gods, spinning and cutting the threads of faith.

## SPECIFICATIONS

Weight	38 Kg
Length	1.8 m
